NOVEMBER 2007

We're sorry to be so late with this edition of the newsletter. But, our committees have been working overtime to contact our local representatives.

Veterans Day approaches. We will be celebrating our Veterans at Memorial Park in Pasadena. November 11, 2007 at 11:11 am, there will be a fly-by of WWII planes. Activities start at 10:30 am, and conclude at 11:11am. If you want tickets for the barbeque in the Senior Center, following the ceremony, see Steve or Dave.

Our commo-center now has DSL, which makes life much easier and faster. We seem to get many pictures, and other items, which need longer down load time. This should speed things up.

James, our president has been contacting politicians, telling our story. Also, he has become a Veteran Service Officer. This is an activity many in the chapter shy away from. Our hats are off to him.

Others in the chapter have been arranging computer support for those completing rehab and employment training at "New Directions".

As Vietnam Vets we don't march lock-step with one another, and many of us have our own agendas. A questionnaire is included for your feed back to us. Please help by completing and returning it. Thank-you.
